

Mechanical

At Schlam, we offer mechanical services as part of our suite of competencies, enabling a complete package offering when it comes to the repair and maintenance of your equipment. With a specific focus on large component maintenance in both Mobile and Fixed plant applications complementing our wear management capability, you can be sure our team is ready to meet your needs.

Capability

With our service centre workshop fully equipped to tackle issues off site, and a team of experts to complete mechanical repairs on your site, we have your heavy mechanical needs covered. Our mechanical services include:

- Fixed Plant Shutdowns
- Mobile Equipment PCR programs
- Shovel/Excavator Shutdowns
- Line Boring and Machining
- Parts Reconditioning and Reclaim
- Component Overhaul
- Equipment Mobilisation and Demobilisation
- Ancillary Servicing and Repairs
- Labour Hire and Leave Coverage

Results delivery

Schlam can complete the full cycle of maintenance and repairs for your equipment so there is no need to be dealing with multiple contractors. All of our work is completed to the highest standard and is ISO 9001 accredited. This ensures our clients are able to minimise costs and downtime in the field, enabling production to be maintained as efficiently as possible.
